

Information Security Policy

Document ID: POL-IT-004 | Version 2.2 | Effective from 1 January 2026 | Owner: IT Security

1. Purpose and Scope

This policy protects company and customer data. It applies to all employees, contractors and interns who use company systems, and to every device used to access them.

2. Accounts and Passwords

2.1 Passwords

Passwords must be at least 14 characters long. Passwords are not rotated on a fixed schedule, but must be changed immediately if you suspect they have been compromised. Do not reuse company passwords on personal accounts.

2.2 Multi-Factor Authentication

Multi-factor authentication (MFA) is mandatory for company email, the VPN, the code repositories and the cloud console.

2.3 Screen Lock

Laptops and desktops must lock automatically after 5 minutes of inactivity. Lock your screen manually whenever you leave your desk.

3. Devices and Media

3.1 Company Laptops

All company laptops use full-disk encryption. Employees must not install software that is not on the approved software list. Requests for new software are raised through the IT service desk.

3.2 Removable Media

USB storage devices are prohibited on company devices. Exceptions can be requested through an IT service desk ticket and must be approved by the CISO.

3.3 Personal Devices

Personal phones and tablets may be used for company email and chat only after they are enrolled in the company's mobile device management (MDM) system. Personal laptops may not be used to access company systems.

4. Reporting Incidents

Report the following events to security@nimbusworks.example immediately:

- A lost or stolen laptop, phone or access card
- A phishing email that you opened or clicked a link in
- Suspected malware on any device
- Any unauthorised access to systems or data

A lost or stolen device must be reported within 2 hours of discovering the loss. Do not wait until you have searched for it.

5. Consequences

Violations of this policy may lead to disciplinary action. Deliberate or repeated violations are treated as serious misconduct.
